

hsa-miF

positive regulation of T cell mediated cytotox
regulation of T cell mediated cytotox
positive regulation of T cell mediated immu
T cell mediated cytotox
positive regulation of leukocyte mediated cytotox
T cell differentiation in thy
natural killer cell mediated immu
regulation of T cell mediated immu
Ras protein signal transduc
leukocyte mediated cytotox
adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily dom
positive regulation of lymphocyte mediated immu
T cell mediated immu
positive regulation of adaptive immune respo
glial cell develop
regulation of phosphatidylinositol 3-kinase/protein kinase B signal transduc
phosphatidylinositol 3-kinase/protein kinase B signal transduc
peptidyl-tyrosine phosphoryla
T cell differentia
positive regulation of protein phosphoryla
positive regulation of phosphoryla
lymphocyte differentia
leukocyte differentia
protein phosphoryla
regulation of protein phosphoryla
regulation of phosphoryla
leukocyte activa
phosphoryla
programmed cell d
cell d
regulation of programmed cell d
cell communica
